

Keeping All Stakeholders Informed

Discovery School Murfreesboro City Schools

Discovery School has taken steps to ensure their school-wide expectations are visible and understood by all family and community members. Banners have been installed at the front and back of the school so that those who enter know students and staff members strive to be Respectful, Responsible, and Remarkable.

The PTA maintains a “Remarkable” bulletin board in the front hall that highlights the school-wide expectations. The expectations posted are specific to one location within the building and rotate monthly. Information on highlighted locations are also sent electronically to community stakeholders through a monthly Campus Connection newsletter. Lastly, in an effort to support understanding of the Discovery School expectations, at each assembly or school event families and community members are reminded by administration or Student Council Officers to be Respectful of others, Responsible with their behavior, and thereby show how Remarkable they can be!
