

# Implementor Spotlight

SEPTEMBER 2020

## Charlotte Park Elementary School

Metro Nashville Public Schools

When Metro Nashville Public Schools announced that they would start the school year through remote learning, Charlotte Park Elementary School began to plan for implementing their Tier I RTI<sup>2</sup>-B plan virtually. The RTI<sup>2</sup>-B Tier I team created a video to teach their school-wide behavior expectations—Positive Attitude, Act Responsibly, Work Hard, and Show Respect—for remote learning. Charlotte Park Elementary School staff shared this video with all of their families so that students were taught expectations for remote learning. What a wonderful example of innovating to meet the challenges of beginning the school year remotely!
