

1

Winfree Bryant Middle School has done a fantastic job with their first year of implementation of the RTI2-B framework. Their RTI2-B team has found a great deal of enthusiasm in creating both Student and Staff Acknowledgement Systems. After the students earn enough tickets, they are able to spin the wheel during their lunch hour and win one of the fabulous prizes from the traveling cart. Students also receive “Positive Postcards” in the mail from staff members looking to acknowledge how well they are doing with the behavior expectations. After collecting five of these postcards, students are able to submit them for a raffle. Because we all know that we couldn’t have great schools without great staff, the staff members also receive acknowledgements. They are gifted UNO (UR Not Overlooked) cards that they are able to exchange for small gifts, most of which have been donated by the community. Please join us in celebrating Winfree Bryant Middle School and their great start to the school year!
