

# ACCESSIBLE MORNING MEETINGS

## Erma Siegel Elementary

Murfreesboro City Schools

In an effort to make their Morning Announcements and Morning Meetings available to all students and families, Erma Siegel started a Siegel Vimeo channel. Everyone can access the channel by clicking a link on the school's website to play the video for that particular day. Teachers can access it in the building and virtual students can view it at home. Teachers receive a weekly overview so they know what will be discussed during the morning meetings. This Vimeo channel will also be a valuable resource if school needs to return to remote learning again, because this is a routine that can be maintained. This process has worked really well and has been user-friendly for all of Erma Siegel's stakeholders. The school has even received positive feedback from a few families who let them know how much they enjoy the Morning Meetings!
